Flight Rules

- To fly you must here you must have either TRUST or Part 107 certification. All rules of TRUST apply
  - All flights must be in line of sight. VFR must have a visual observer
  - As a general rule – do not fly over people
  - LAANC is required for each primary pilot – request 200 feet and radius within line of sight. Some of the Apps available to facilitate LAANC are Airmap,and Air Control by Aloft. B4UFly is a useful app that provides Airspace information and has a link to Air Control.
- By attending this event, you grant permission and consent to all participants, organizers, volunteers and other affiliates for the use of pictures, images and video of you taken at the event.
- By attending this event you assume all risks of participation in this event including travel to and from the activity or any events incidental to this activity. More detail on the below web page.
