

# DroneScape, PLLC

*Professional Engineering utilizing drone technology*

An engineering firm specializing in engineering practices utilizing drone technology. Engineering assessments aligned with 3D technology, infrared inspection, structural inspection, cell tower inspection, power generation aerial assessments and remote location video reconnaissance.

## Thermography Services

- **Power Line Inspections**  
*Detect weak points in the transmission and distribution network*
- **Cell tower inspections**  
*Economically inspect for and detect potential issues*
- **Building Inspections**  
*Energy audits of buildings and equipment  
HAZMAT inspections*
- **Solar Panel Inspection**  
*An entire field inspected quickly  
and hot spots identified*
- **Locomotive inspections – video and thermal**

## Aerial Video Photography

- **Construction sites**
- **Building Inspections**

## Location engineering

- **3D digital assessments**  
*Visualization and analysis using  
Pix4D and DroneDeploy*
- **In house set-up of corporate  
drone programs**

Registered Professional Engineers  
Private Pilots & Remote Pilots  
Licensed Surveyors  
FAA aircraft registered drone fleet  
(N numbers)

**Certified NCDOT DBE firm**
